PROFESSIONAL EXPERIENCE

01/2023 – 03/2023

Remotely, Poland

Junior PHP developer

PonadNorme P. S.A

Designing and creating a REST API for an online store was part of my responsibilities. I developed full CRUDs (create, read, update, delete) endpoints with validation and created documentation using Swagger.

PROJECTS

Vegvisir

Stack: PHP 8.2 / Symfony 6.2

Under the guidance of a mentor, I collaborated on a project to develop a household budget management application that enables users to monitor and plan expenses, create budgets, and manage assets. We also created a functional API based on Swagger documentation.

NBP Currencies

Stack: PHP 8.2 / Symfony 6.2 / Laravel 10

The project utilizes publicly available data from the NBP API, which is fetched and processed to be stored in a database. It also allows for the use of CRUD operations to interact with the API.

EDUCATION

10/2023 – 06/2026

Warsaw, Poland

Higher School of Banking

Computer Science, Bachelor's degree

SKILLS

PHP • Symfony • Laravel • SQL / PSQL / MariaDB • HTML / CSS • JavaScript / TypeScript • React.js
Git • Docker • Linux

LANGUAGES

Polish (Native) • English (B2)

DECLARATION

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the European Parliament's and Council of the European Union Regulation on the Protection of Natural Persons as of 27 April 2016, with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (Data Protection Directive)
